## **Taht Abayat Abil Alaa**

"Nations live by its literature", old philosophers said. Naguib Surur in this book is part of that literature. Al Ahram, the widest newspaper in Egypt wrote: "Thirty three years have passed since Naguib Surur, the Egyptian actor and poet, died on 24 October 1978, leaving behind a treasured legacy for his short, yet rich, life." This book is an example of his legacy as talented critical Arab writer.

This book was selected as part of Ihyaa al Turath al Arabi fil Mahjar; (Revival of Arab Heritage in Diaspora) project to disseminate knowledge among new Arab generations in Diaspora. ## **Crusades, Jihadists and Islamophobia**

This book in English

“Jerusalem,” the pope says, “implores you to come to its aid. Undertake this journey eagerly for the remission of sins, and be assured of imperishable glory in the kingdom of Heaven.” This quote was found in Poul L. Williams book: The crusades: The Complete idiot’s Guide to the Crusades under the title: Ticket to Paradise.

In this book, however, the purpose of the three articles written and published in the west by the author was to analyze the relation between West and East in the aftermath of 9/11.

The author, an Arab American scholar and scientist attempts to show the early Crusades as the starting point to planning against Islam as a world religion. However, the analysis is sociological rather than political.

The book is part of enhancing knowledge base for young Arab and Muslim generations in Diaspora. The content is divided into two parts: one on Terrorism and the other on the Phenomenon of Islamophobia in the west.

I hope the book will find readers satisfaction and understanding. The writer is an Arab Muslim American scholar and scientist, close to be qualified as a philosopher, but never claimed that title except description from some writers. But, for sure he is highly qualified to deal with the issues on the aftermath of 9/11.

## **Che Guevara The Irish Freedom Legend**

In English

Early in my life, I was close to the twenty years of age. It was the early 1960s. I was sharing the world the enjoyment of a number of country independence as well as great people assassinated or died. One of the persons I admired was Che Guevara, the South-American-Irish Legend. He was the role model for almost every oppressed person (male or female) around the world, because he was the Icon of freedom through resistance. An approach was supported strongly by all freedom fighters all over the world. PLO in that time was formulating its cadre through Fatah Resistance movement. Assassinations occurred in a short period of five years between 1963 and 1968. JFK, the 35th President of the United States, was assassinated on Friday, November 22, 1963. Malcolm X: February 21, 1965, Che Guevara on October 9, 1967. And MLK one year later was assassinated on April 9, 1968.

Che was a little different from the other three, he was not American, he was in fact working against Imperial America. That means strong support of Communism. A quality cannot be accepted by the USA.

This book describes Che's Life, and answer questions on how Che Guevara became a legend for almost all young people looking for justice, with his pictures hang up on protesting squares, and home walls in Asia, Africa, Latin America and great part of Europe. He was the icon for freedom and justice. And how his assassination by the CIA commando forces was formulated and executed the assassination. Since then, America continue to be the enemy of freedom, or that was the image or you may say perception of young people outside the United States.

The writer is an Arab American author, scholar and scientist. His publications exceed the 200 books in both Arab and English languages. He is the originator and president of the Arab American Encyclopedia-AAE. Dr. Yahya resides in Michigan, USA. He has four children and ten grandchildren.
